RESULTS WITH CASTOR BEANS — Wilford Koslan, left, and Gilbert Koslan, Manheim 4-H Club boys, are pictured in their castor bean project of 1952. The tract shown produced $50 per acre with an application of 200 pounds of 12-24-12 fertilizer. Another test plot with 100 pounds of 12-24-12 fertilizer produced $35 per acre, while a third plot with no fertilizer produced only $10 per acre. The Koslan brothers, sons of Mr. and Mrs. Ben Koslan, will test the Cimmaron variety of castor beans under plans with the Lee County PMA committee in 1953.
