**TRUCK AND ROADSTER
COLLIDE**

M. N. Peter and Mr. Alexander of La Grange were on their way to Austin Friday evening in Martin's roadster. They met a truck loaded with brick at Butler and Martin's car was badly damaged on the right side with the result that the body was very much out of line. Mr. Alexander received some fractured bones in his right forefinger. Martin escaped without any injuries. The car was brought back to Giddings Sunday and was the first of three wrecks to be placed side by side, all happening within a short time of each other.
