**TERRACING PAYS**

Emil Behrens, one of Lee County's thriftiest farmers has just returned from a trip to Fort Bend County where he visited relatives. He reports a pleasant trip and also feels that Lee County is not alone in spotted crops this year. He noticed that where land has been terraced that the crops are far better, and is thoroughly convinced that terracing land pays in more ways than one. Emil has been an advocate of terracing for many years.
