**BONE BROKEN.**

Philip Bissell - accidentally broke a bone of his hand Friday while playing on the school grounds. He fell on his hand with the result that one of the bones leading from the knuckle to the wrist broke. Philip happened to get his arm broken last year, and Joe got his arm broken this year. Another brother Alfred fell from a windmill tower last June and got his arm broken and it did not properly heal, so it was necessarily re-broken to be set again. Still another brother Angus while carpentering fell from a roof and broke two ribs last July. The Bissell boys get more than their share of breaks close together.
