

The Giddings News

January 10, 1941

ADVERTISED GOODS

Mr. and Mrs. Joe Bownds of Adina were in Giddings Saturday buying an electric washing machine and iron for use in their home as the rural electric line is about completed out that way. They live twenty-five miles from Giddings on the Taylor road which is practically a dirt road all the way. They do most of their general trading in Taylor where the roads are better but they read the Giddings News and watch the advertised goods and when they get ready to buy they come to Giddings.
