**Giddings Girl Makes Good
at Studies**

Miss Mabel Marie Burr, a Sophomore in Baylor University, enjoys the distinction of being one of the few young ladies who are pursuing pre-medical courses. When Miss Burr has completed her Bachelor of Arts degree she will continue her study of medicine in the Baylor University College of Medicine at Dallas, Texas. Miss Burr is one of the most competent students in the Zoology department. She was appointed student assistant to the professor of Zoology for the year 1921-22.

Miss Burr is the daughter of Mr. and Mrs. W. W. Burr of Giddings and she received her preparatory school training in the Giddings High School, on Baylor University in the fall of 1920.

By means of her position, Miss Burr is enabled to defray a part of her expenses and is also eligible to promotion. Student assistants are selected on account of their scholarly attainments and the honor is one to which many students aspire. The News congratulates Miss Mabel on her success and wishes her still more honors.
