**Miss Burr Improved**

Miss Ruth Burr, daughter of Rev. W. W. Burr, and who formerly visited in Giddings, has so improved in health that she will resume her work in Houston next season. Her health gave away, and she completely broke down, and it was necessary that she spend a year or so in another climate. When her condition became known, her friends in the music profession in Houston gave a benefit recital for her, realizing about one thousand dollars, which was of material benefit in regaining her health. Her many friends in Giddings will be glad to know of her recovery.
