Home On Leave

Dr and Mrs. R. L. Cherry of Greece are home on leave.

Dr Cherry has finished a four year term as director in the public health service at Athens. Their daughter is married and lives in Switzerland.

The trip home was made by plane. The doctor was asked how he enjoys life in foreign countries. "Well," he replied, "it certainly makes us enjoy home when we get here."

The doctor expects to be transferred to Iran when he returns to Europe.
