**FRED COLLIER VISITS HOME**

Fred Collier arrived last Friday to visit home folks in Giddings after a stay of over 3 years in Columbia, South America where he was an accountant with a large oil co, a subsidiary of Ahe Texas Co. Fred says he enjoyed his work there along with many others from the U. S. A. but all bookkeeping is done under the severest scrutiny of the government of Columbia. He says that the natural resources of that country are merely touched. Sympathy with U. S. A. in present world condition, is close but since all scientific and industrial progress is made by citizens of the U. S. A., restrictions are placed on the number of work-  
whom must be natives of Columbia.
