SOME FISHERMEN

John Simmang and Ira Dippel returned Tuesday night from Port Aransas where they went on a fishing trip. They report a fine catch and from the way they sent the editor fish, they must have caught them in abundance. Sunday they caught 125 lb., Monday 325 lb., and Tuesday 50 lb. They landed a large pompano 12 miles out in the gulf and it weighed over 200 lb. and it gave them a merry tussle before it was brought to land. They played a prank on one of their friends there by placing the large fish before his place of business Sunday afternoon, which attracted a crowd. They telephoned him that his place was being robbed, so when he went down and saw the crowd he thought something had really happened.
