\$50.00 For Pull

August Doernitz of Elm Box was a caller at the News office Tuesday, returning from Eldin where he spent the holidays with relatives. He was near an unimproved strip in the highway and the road became so bad that the charge for pulling an auto through was \$50. The farmers would warn the motorists not to enter the strip of mud because they (the farmers) did not care to pull the cars out for pay because the mud was so deep that it was injurious to the mules.
