E. A. DOMASCHK INJURED

Mr. Domaschk was injured this week when his auto overturned. He was coming from his farm and while about to meet another automobile he turned out from the center of the road and was avoiding a large rock. In some way, possibly by being in a rut, he lost control of his car. His head was injured, his mouth received a gash, one rib broken and fractured bone in leg. He is resting well and is quite cheerful for his 78 years. His many friends wish for him a speedy recovery.
