

*The Giddings News*

August 11, 1922

Sunday afternoon while driving through a pasture near Serbin, Hebert, the four year old child of Mr. and Mrs. E. C. Droemer was playfully catching leaves as the auto passed trees. In some manner his grasp on a limb was so secure that he was snatched from the auto and thrown against a tree and; in turn, was thrown back under the auto. One wheel passed over his shoulder and dislocated it, fracturing the bone and also breaking his arm below the shoulder. His hand was also torn. The little fellow accompanied by Dr. Johnson, was taken to Austin where treatment was given and he was brought back home Monday night. Mr. Droemer is thankful that the boy's body was not so thrown under the car that the accident could have been more serious.
