Almost Lost His Life

During the high water in the Yeagua last week, T. N. Reat of Dime Box was attempting to rescue some of his cattle. In order to reach them, which was quite a distance, a raft was constructed. Mr. Reat accompanied by John Gantt were floating across a slough and, in some manner, the raft became caught by some drift and was overturned catching him underneath the raft. Mr. Gantt being pretty active was able to rescue Mr. Reat otherwise the accident would have been serious.
