

Giddings Manufacturing Co.

One of the most efficient manufacturing plants in Lee or any of the surrounding counties, and one commanding an enviable reputation for both quality and service is the Giddings Manufacturing Company.

The Giddings Manufacturing Company manufactures ice and they have a daily capacity of 15 tons. So essential is purity in this product that extra-ordinary precautions are taken by this company in producing a healthful product that means so much to the household. The Giddings Manufacturing Company manufacture the celebrated brand of Ice Cream which is sold by dealers throughout the county. From one end of the plant to the other everything is kept clean, neat, orderly, and sanitary to the highest degree. This company furnishes light and power to the city, and the citizens have a word of praise for service rendered.

Satisfaction and the desire to please is uppermost in the mind of manager W. A. Darter.

This company handles all Electrical Supplies, such as Batteries, Bells, and Fans; does wiring of all kinds and for every purpose. They also handle all Water Work supplies, such as Valves, Pipe and Pipe Fittings and have Power Plant supplies—among which may be mentioned Belt Dressing, Packing, Babbit and iron cement. They have a large supply of Creamery supplies.
