

The Giddings News

July 31, 1931

Harry Goff is back on the Giddings News force this week playing the linotype after almost a year's absence. During the interim he has been developing his claim in the state of Colorado, where he has some mineral and surface rights in his grant from the government. If proration is not put into effect, he soon won't have to work anymore, but right now he says he needs work more than a claim. He is some linotype operator.
