

***The Giddings Star***

December 10, 1953

Gus Groeschel, of Austin was a business visitor in Giddings last week. He has just returned from Espanola, New Mexico, where he was employed as carpenter. He said when he left Espanola, they had 10 inches of snow there. The northern part of New Mexico was covered with 18 inches and more. He witnessed two snow storms there in one week. The temperature was 10 above when he left. Mr. Groeschel intends to return in several weeks.
