

The Giddings News

January 13, 1922

Albert Handrick whom the editor had the pleasure of teaching the A. B. C's at Lincoln several years ago was a caller at the News office Friday. Albert has climbed up in the educational world. He graduated from the State Normal at San Marcos and became a proficient teacher of manual training and he will take his degree in business administration next June from the State University. Albert ranks among the best one percent of the student body, he is president of the senior class in his department, and he will be eligible for the Phi Beta Kappa upon graduation, which is the highest honor of scholarship in the university. Go higher, boy, there is plenty of room at the top.
