

Automotive Machine & Supply Offers Engine Repair Service to Garages

The Automotive Machine and Supply, owned and operated by E. F. Herklotz, provides facilities for motor reboring, crankshaft grinding, valve refacing, and reseating, rod aligning, for both automobiles and tractors, for garages throughout Central Texas.

It is the only fully-equipped machine service shop in the area from Austin to Brenham and from Waco to Victoria.

The shop carries in stock a complete line of engine and clutch parts for all makes of

tractors and trucks.

They can also shop make and line bore main bearings for any tractor regardless of size or make from the Farmall Cub to the Caterpillar D-8.

The shop is equipped with the latest in line boring machines and lathes for general lathe work.

At the head of this institution is a man who has had years of experience and special training in motor upkeep, assuring satisfaction in all jobs turned out by the shop.
