**Adolph Herter Takes  
Over Lime Business**

Adolph Herter of Lexington has purchased the lime spreading equipment from Ruel Brown of the Pleasant Grove community.

Mr. Brown was forced to retire from the business on account of his health.

Mr. Herter will sell and apply lime and phosphate throughout Lee County on the same basis as the former owner.

Producers desiring lime should place their orders with Mr. Herter as soon as possible at the PMA office.

W. D. Moody of the PMA office pointed out that the fair price of lime spread on the land is \$5.70 per ton. Of this amount the PMA will pay \$2.85 leaving the same figure to be met by the producer.
