Injured By Fall From Horse

D. M. Hill of Houston injured his right leg, when the horse he was riding, fell and his leg got under the horse. No bones were broken, but the injury sustained has been quite painful. Douglas is unable to stand on his leg and will probably be laid up for a week or 10 days. The accident occurred while Douglas was helping another man round up cattle which he had sold to him. His Giddings friends wish for him a speedy and complete recovery.
