

HILSBERG'S CAFE ENLARGED

Lee County Lumber Co., owner of Hilsberg's Cafe, which has been erected not so very long ago, is enlarging it in order to better serve the customers of the cafe. A large dining room is being added on the cafe and also a kitchen and 2 storage rooms. The addition to the restaurant was necessary on account of the increase in business, stated Mr. E. Hilsberg, manager of the cafe.

An aircooling system will also be installed, providing the entire building with cool air during the summer, according to Mr. Ed Hamff who is supervising the construction work at the cafe.

The new rooms are being added on the northern side of the building.

A barbecue pit will also be built so that fresh barbecue can be served daily.

Completion of the new addition will require several weeks according to information received from Mr. Hamff.
