

The Giddings News

August 14, 1942

Ed. Hosea and family of Giddings spent Sunday with her father and brother John and Frank Bell. While there the children of Ed Hosea playing about the house discovered a loaded shot gun and upon examining the gun, the gun was discharged, shooting a finger from the hand of a baby girl, causing much excitement. The child was rushed to a Giddings doctor where special treatment was given and up to this writing the little girl is doing nicely.
