**MORE PROFIT IN
WHOLE MILK**

Ed. Kasper, Warda, who drives the milk route every day for the condensary at Schulenburg, says his route is gradually increasing each month. Farmers are realizing more out of their milk than from cotton, and the Warda people have been receiving over \$1,000 a month this summer. They are finding that it is more profitable to sell whole milk than butter fat, and they say their calves and hogs are not suffering from selling whole milk.
