Dr. M. W. Kriegel Accepts New Post

Dr. Monroe Kriegel son of Mr. E. F. Kriegel of Giddings who was until recently a member of the faculty of the chemistry department of the Texas College of Arts and Industry of Kingsville, Texas passed through Giddings Saturday on his way to Tulsa, Oklahoma where he will accept a position with the Carter Oil Company a subsidiary of the Standard Oil Company.

Dr. Kriegel will head the department of geochemical research for the oil company which does all its oil field exploration research. The geochemical department, which for several years has been to apply the combined knowledge of physics and geology to seeking new oil deposits.

While at the University of Texas, Doctor Kriegel did graduate and undergraduate work in the chemistry of petroleum. He held a fellowship in the bureau of industrial chemistry at the university and also worked as field engineer for the oil and gas division of the Texas railroad commission before coming to the Texas College of Arts and Industries.

Dr. Kriegel arrived here Saturday afternoon and spent Sunday with his parents. Then he proceeded on his trip to Tulsa.

The Giddings Star joins the many friends of Dr. Kriegel in extending to him their best wishes for continued success in his new position.
