TURKEYS FOUND

Hm. Kuehn of Concord who lost a flock of turkeys a few weeks ago, has located them on a farm south of Winchester. Two of the flock were missing when located. The flock wandered away from Herman's farm and he followed them for several days until he lost trace of them. He could not catch up with them as he would locate their roosting place over nights about three days after they had left. They seemed to be on a fast move all the time. He traced them through several communities and last heard of them between Serbin and Grassville.
