TURKEYS WANDERED AWAY

Hm. Kuehn lost a flock of 16 turkeys and the last report he heard of them was that they had wandered 30 miles in less than two weeks. He was able to trace them from his home in Concord community through the Good Hope community and on toward Grassyville. He was able to be within three days of them as they would spend a night roosting at some farmer's place. See his advertisement in this issue describing the turkeys.
