**PRESTON LONGLEY INJURED**

Wednesday afternoon while the school boys were practicing in a foot ball game, Preston Longley, the captain, was hurt in some way which seemed as if might be pretty painful. He complained for a while before he stopped playing, telling some of the boys he was suffering severe pain but kept on playing and after the game he seemed to have suffered a fainting spell and then developed he was suffering considerably. Medical attention was immediately summoned and he was carried home after he seemed to be some better, but still suffering considerably pain. Preston is considered an awful good player and it is with hopes he has suffered nothing serious and will soon be able to be at his post again.
