

The Giddings News

June 13, 1941

Grand-dad Here.

Dr. A. P. McElroy of West Texas is visiting his grandson, Raymond and family in Giddings this week. The Dr. is passed 81 years and gets about quite spryly and retired from active practice only a few years ago. He is full of wit and says that the man in West Texas who formerly sang "It Ain't Going To Rain Any More" went north and was drowned in a dry lake in the dust bowl.
