

*The Giddings News*

August 13, 1920

---

Willie Dungan, Bill and Eddie Meyer and several other boys after spending some time in the wheat fields of north Texas have returned home. Most of the boys were located in Knox Co. where they say the wheat crop was pretty good. The season was somewhat over there and they did not care to get farther away from home before returning and many of them will start to school next month.
