**VIEWPOINTS  
OF AN N. Y. A. GIRL**

By Ida O'Rean Mobley  
of the Giddings Project.

I consider myself very fortunate to be among the hundreds of girls and boys on N. Y. A. projects. I'm sure had more of them known the many helpful and educational traits, they too would have served as many months as possible with us.

I want to take this opportunity to express my feelings toward N. Y. A. work. I think, and I'm sure I speak for all the other girls, that it is the most helpful project ever set up for the training of girls. We not only learn to cook, sew, and re-finish furniture, but also to prepare food economically. These, along with other things we are taught, help us to become better future home-makers.

After the world crisis is over I hope that those who have not yet had the opportunity for N. Y. A. employment, may be given these same privileges that we have found so worthwhile.
