

Moe's Cafe Revamped

If you walk into the place between IGA Supermarket and Placke's barbershop you might feel like turning around, thinking you are in the wrong place, but don't do it. Walk right up to the counter for that cup of coffee or to one of the tables for a meal.

Moe's Cafe was "closed for repairs" for a week, and during that time there were some changes made. The large oven in the back was removed and the wall in the building was removed giving the restaurant a much larger appearance.

Moe still bakes pie, cakes, and doughnuts, but since the oven is gone, no more bread can be baked in the place.
