**TAKE A TRIP SUNDAY AND LOOK
AT THE BIG DERRICK OF GID-
DINGS OIL GAS AND DEVEL-
PMENT CO. ON THE AUGUST
NOACK FARM.**

It will be worth your while to take a trip out to the Number One location of Giddings Oil Gas and Development Co., on the August Noack Farm and have a look at the big 112 foot derrick. The work of erection has started and the derrick should be nearly if not quite finished by Sunday.

For the benefit of those who do not know the location, the following directions are given: Keep right on the main Lincoln Highway, pass the Lincoln Church and turn right at the first cross road; turn left at first gate follow lane going through two more gates until derrick is reached. Every body is welcome, but kindly observe the following: Close all gates, Be Careful Where You Throw Lighted Cigars, Cigarettes or Matches.

Quite a number of people visited the location last Sunday, and it is expected a much larger crowd will be there this Sunday now that it is known that work on the erection has started. Go out and have a good look and see if you don't think you should help the company that has started this development.
