

***The Giddings News***

October 17, 1941

**Queer Weather.**

Mrs. J. M. Partain writes from Washington, D. C. that the past September has been the driest in that city since the weather bureau was established in 1844, and that October this year has brought the hottest weather for the past 53 years. Water power is so low in many streams that electric service is curtailed.
