Auto Overturned

Late Sunday afternoon an automobile driven by Miss Clara Placke turned over, pinning the driver, Miss Bertha Lehmann, and two boys underneath the car. They were driving on the good road down the hill leading from the court house to the La Grange road and were going at a good clip when they left the gravel road and turned on a dirt road. They soon reached a bed of sand and the two tires on one side of the auto gave away and the car turned over resting upside down. The occupants were between the seats and were not injured except for a few scratches. The wind shield was smashed and bent backwards and one fender was mashed in. The steering wheel, and top were broken and several other parts to the car were broken. The radiator was resting on a slight ridge which raised the car some and possibly that was what prevented the car from injuring the passengers.
