Speedy Driving

A card from J. S. Reat states that he and Mrs. Reat left Lexington last Tuesday morning at 5:30 with C. D. Heat in an auto and they drove 260 miles that day, arriving at Logansport, La. at 6:39 p. m. He states that they passed through some lovely country and found good roads most of the way, and the last one hundred miles of Louisiana roads were as fine as could be, autos making 40 miles an hour on them.
