

The Giddings News

April 22, 1932

Rev. C. W. Rische left Wednesday night for Wheatridge Luth. Sanitarium, near Denver, Colo., where his son Woodrow, age 13 years, has been since the latter part of January. He developed symptoms of tuberculosis, but Rev. Rische received advice that the young man is entirely recovered and is ready to return home. The many friends of Rev. and Mrs. Rische rejoice with them that their son is able to return home.
