Team Frightened

August Schmidt of the New Oldenburg community was returning home Tuesday with two bales of cotton on his wagon. His team became frightened at meeting an auto which drove up very close before turning out of the road and the team jumped to one side of the road. August jumped from the wagon but did not jump far enough, and one bale of cotton fell on him. Another farmer was nearby and helped him from under the cotton and August proceeded home, feeling that he was not much injured from the accident.
