**THEO. SCHROEDER  
ANNOUNCES FOR  
COUNTY SUPERINTENDENT**

**ONWARD NOW TO VICTORY:**

There is a tenseness in the very air to-day. The whole world seems to be upset and unstrung. We are engaged in one of the most terrible and devastating wars of mankind. Let us remember that this is a war of all Americans. Let's get busy and lead it speedily to victory. There is a part in this war for every man, woman and child. Let us not spend our time for what we might have done, but forward now to victory. Now is the time to go into action. Let us all form our lives and ways as to create a design for national victory.

One of our state's biggest enterprises conducted on a nine-month epoch, spends millions of dollars in that time, employs thousands, and gives service to over a million, and is of great value to the welfare of the state is our great school system. This grand institution extends to every community in this state. Our children of Lee County are enjoying this great freedom in every sense. This war must be won to maintain this great liberty for our beloved children. One of the great blessings of this country is religious freedom, and this blessed heritage must be upheld at all cost. The victory depends upon the attitude of every individual, the part each one plays, the willingness to do his share, and the sincere devotion to his duty.

Now I wish to humbly submit my candidacy for county superintendent for your consideration. I have been a life-long Democrat. My many years of experience as a teacher and principal in the school-room, my years of training enable me to handle the affairs of this office fully. Let me assure you my full cooperation with all who are in contact with our schools. If any deals regarding schools are to be consummated, where the advice of the office of the county superintendent is necessary, this information would be tendered. I am grateful for your consideration. I am one who is well acquainted with

ings, whether great or small, they shall be done promptly, courteously and willingly.

I have lived in Lee County seventeen years, graduated from Concordia Teachers' College, Seward, Nebraska, attended the Northwestern State Normal of Alva, Oklahoma, and have attained a Texas state permanent elementary certificate which qualifies me to hold this office. I would certainly be thankful for any favor tendered me this coming primary election.

Cordially yours,  
**THEO SCHROEDER.**

—O— (Pol. Adv.)
