CAR STOLEN

"Max Schultz and family were spending a few days in Marlin and Thursday afternoon they decided to drive out to the river and let the children swim a while. They parked their car on the highway with the keys in it and went to the river where the children swam for a while and they decided to eat a watermelon which was in the car. The melon was gotten from the car and they went a short distance down the hill and ate the melon. When they were ready to go, the car was gone. Mrs. Schultz and children came back to Giddings Sunday with Paul Schultz who went over after being advised by his brother Max.

As Max was driving out of Marlin he noticed an old truck ahead of him with three boys in it. He passed the truck on the way to the river. When he went to Marlin and got the sheriff they met the truck and two boys. The two boys are yet in jail but they refuse to say there was a third boy with them.
