

*The Giddings News*

April 15, 1921

Word was received here from Tuesday morning from Mrs. Ernst Stephan stating that her husband was some better. This relieved the terrific strain their many relatives and friends had been under since a few days before he was reported very low with pneumonia. Mr. Stephan is remembered a few years ago suffering a severe attack of the Flu and it took him many months to even be able to get out of the house and it seems he has never fully recovered from the attack. He and his wife have been living at Clarkridge for the past year or two where he is engaged in the Garage business, and their many friends sincerely wish for his speedy recovery..
