

The Giddings News

July 3, 1931

BLUE NEWS

Blue has received very little rain, not even enough to help corn, but enough to help cotton some.

The cotton crop looks very promising with blooms plentiful.

Weevils are in many fields, but no serious damage done so far.

Feed Crops are suffering very much for rain also. Lexington reports a good shower of rain Monday but not much in this section, only enough to lay dust.

Almost all the people are through with work, planning for picnics and sports. News is very scarce this week.

Revival Meeting begins July 3

The Christian revival meeting will start at Blue Friday night July 3, conducted by Bro. Holland of Austin. Everybody from surrounding sections is cordially invited to attend. Let's make the church our headquarters for at least one week. "You need God, and God wants you."
