With warm, dry weather, the cotton crop will soon be picked out. The crop about here is somewhat shorter than last year.

The potato crop looks fine. Much syrup has been made this year and much more is to be made this month. Mr. David Sherman who is making the syrup at Blue reports some good turn-outs. The old-fashioned syrup mill has come back to Lee County.

It now looks as if Prosperity is not far off. Raising at home the things to eat will bring back the good old times again.
