Fedor Feelings

The health in general is very good to date.

We have had "some" marriages taking place in this community. There were six couples tied for life, Rev. Birkman officiated at each wedding. Be slow, boys, you might create a shortage of girls in this community. The couples are—

Gerhard Scheinder and Miss
Miss Minna Lehmann
Albert Urban and Miss Minna
Drosche

Oscar Jenke and Miss Meta
Domann

Arthur Iselt and Miss Lidia
Winkler

Otto Patschke and Miss Hettie
Winkler

Oscar Boehle and Miss Alma
Kaiser.

We have been having some fine winter weather since Jan. 19 which is of great benefit to the farmers. The rain of Saturday night was a soaking one which was well received. The farmers were plowing right along before the rain, but they will now take a "vacation" (from plowing) for a few days.

The writer would be glad to see every one of us farmers plant plenty of corn and feed and foodstuff and less cotton and try to have his corn crib and smoke house at home instead of in the North. I think Lee County is an ideal county for diversification and it will be of much help to us farmers to plant less cotton. Whatever cotton we plant, let it be the best seed obtainable and give it the best cultivation. By so doing, we can live at home and be more independent.

to the News.

P. S. If this does not get into the waste basket, I will come again.

(Come again, farmer reader we like letters of your class. Lee County is alright and Fedor is a rich spot in Lee County. With smokehouses and corn cribs full, this is the land of "the plenty".)
