**12-YEAR SCHOOL SYSTEM**

The Giddings public school will go on a 12-year basis beginning next September. The new system has been officially adopted as the recognized system in Texas, composed of 8 years in the elementary grades and four years in high school. Junior high schools will operate on the 6-3-3 system with graduation from the 9th grade.

The 12-year system has been tried out for a few years by several important school systems in Texas and is found to be very satisfactory.
