FFA Club Activities.

The Giddings Vocational Agriculture boys made a trip to Mr. Milburn's farm with the County Agent Jack Sloan to dehorn a few cattle. The boys have been making field trips in groups with Mr. Cherry, vaccinating and castrating. For class work, they are at the present doing review work for final exams which come next week. Sometime before school is out the boys will probably have a picnic as do the other classes in High School. They are also selling magazine subscriptions to make money for the picnic and other activities.
