FIRE

The home of Mrs. Minnie Hoffmann in South Giddings caught fire Tuesday afternoon. The fire was first noticed in some outhouses and spread to the residence where one room was damaged and very little of the outer buildings were saved. The origin of the fire has not been determined.

The City of Giddings has completed the repairs to the old Pumper and we now have two pumpers for use in fighting fires. The pump was overhauled and new parts installed. These two trucks will give us fire protection equal to or better than any surrounding town, and our department is ahead of many towns.
