**Grassyville Fair**

Rev. Vetter of Grassyville was in a few days ago and mentioned that Grassyville will hold a community fair about July 11. The fair will be held in conjunction with the county agent and the county home demonstrator of Bastrop County, and the people of that community are making plans for a successful affair. The Grassyville people are thoroughly awake to their needs, and nothing will help more in promoting the many good features of their community as will a fair. The editor was given an invitation to be sure and

be present, and also requested to say that the fair will be open to all who wish to take part. Further announcements will be made later.
