

**THE LEE COUNTY FAIR**

The fair opened Thursday morning with a fine general outlook. Agricultural exhibits were not so plentiful, but community and individual-farm exhibits are better than ever before. The two high school exhibits show a diversity of work. Flowers are profuse, especially for the early season when so many autumn flowers are not blooming. Poultry and live stock exhibits are excellent with the largest live exhibit to date. Turkey raising is a decided industry, according to the exhibits. The Jersey cattle show is fine and boys' 4-H hogs are numerous and show up well. The ladies' fancy work, boys' furniture and merchants' dis-

plays are equal to those of anybody's fair.

Attractions and amusements, games and dances complete the full program for the annual home-coming of many Lee Co. folks and their distant friends. The increased interest in live stock in the county is well noted in the number and quality of animals shown.

Visit the Fair and see what the home county is doing.
