**Lincoln to Celebrate**

Messers W. E. Schubert and Otto Welsch of Lincoln were in Wednesday making arrangements for a barbecue at Lincoln July 22. Lincoln generally holds the last barbecue of the season and this one will probably be the last one this year.

Lincoln always holds a good barbecue with plenty of amusements. They have an abundance of shade under the spreading oaks and the occasion is always visited by many from far and near, it being somewhat a central location for many communities. They will continue their high standard this year, and try to put on a joyous event.
